Under Cabinet Light -  
 For shelves 30-36" Wide  
 (24" and 48" sizes available -  
 contact us for more information)

We believe that protecting Earth's delicate ecological structure is not only a sound business policy — it's good common sense.

### Superior Performance

The R-Series platforms are water resistant, have no edge separation where germs can congregate, and can be cleaned and sanitized to maintain a bacteria-free environment.

The R-Series platforms are composed of a minimum of 90% post-consumer materials, making them 100% recyclable.

They are free of formaldehydes and carcinogens and emit no VOCs (Volatile Organic Compounds). The leatherette-covered gel palm rests are equally environmentally friendly. Both the gel core and the leatherette material are free of formaldehydes and carcinogens. The leatherette material can be cleaned and sanitized, as well as removed, for thorough cleaning of the platform.
